

I am writing in support of our local FM station, K-LOVE. We received disturbing news that its future may be threatened by an LPFM broadcaster. K-LOVE is vital to our family and we do not want to see it displaced. K-LOVE provides us with quality music, keeps us up to date with national news, informs us of local events and encourages us with its diverse teaching programs. Above all, it is truly a family-safe radio station. The DJ banter on many of our local commercial stations is simply not fit for family listening.
